DETAILED ACTION

Response to Amendment

Claims 19, 22-24, 35, 40-50 are in the case.

Claims 1-18, 20-21, 25-34, 36-39 have been canceled.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 19, 22-24, 35, 40-50 are rejected under 35 U.S.C. 102(e) as being anticipated by Atago et al (6,286,478).

Atago et al teach a controller that corrects a fuel injection quantity on the basis of the detected variation in the air-fuel ratio and an operation angle of an intake valve of each of the cylinders so as to reduce the variation in the air-fuel ratio when the variation is detected (see figure 20 also col. 10 line 5 through col. 11 line 42).

Response to Arguments

2. Applicant's arguments with respect to claims 19, 22-24, 35, 40-50 have been considered but are moot in view of the new ground(s) of rejection.
